

Participating Health Insurance

Since we are a brand new practice, we are currently in the middle of contracting with most, if not all, commercial health insurance in Georgia. We have been advised that this process can take up to six months and we began this process back in October 2018. We will update this page regularly so please check back often. However, this doesn't mean that you have to wait a long time for care. Please call our office for details.
